- ✔ **Multi-track Specialists** - we specialise in complex injuries only.
- ✔ **Independent** - we have no affiliations to third parties – we work for **you**.
- ✔ **Experienced** - we've been helping patients for many years.

Our Patient Stories'

Our doctors and multidisciplinary clinical professionals are driven to help patients recover and rebuild their lives.

Here's their stories.

Case Study 1

Date: August 2018 - July 2019

Accident: Motor collision.

Injuries sustained:

- ✔ Fractured right collarbone, sternum, multiple broken ribs, intra-abdominal bleed.
- ✔ Severe bruising to chest, back, lungs and kidneys.

Our intervention:

- ✔ INA October 2018, patient was a minor.
- ✔ We arranged physiotherapy, psychological intervention, taxi account, driving lessons, vocational support and activity planning.
- ✔ There was drastic psychological deterioration, we co-ordinated a crisis intervention with the GP, sought funding for a psychiatric referral the next day.
- ✔ Helped complete CV, job search, return to college and assisted the patient on college open days.

Case manager response:

"It was a pleasure to work with a patient who was motivated to make a full recovery - they grew strength on strength every day!"

Patient response:

"I'm exceedingly thankful for all Medicess' continual support and help with returning to normality!"

Case Study 2

Date: April 2017- June 2019

Accident: Motor collision.

Injuries sustained:

- ✔ Complex right lower limb fractures.
- ✔ Soft tissue injuries to right shoulder and left knee.

Our intervention:

- ✔ INA April 2017
- ✔ Arranged a course of 12 private physiotherapy sessions.
- ✔ Further surgery was required - we arranged this privately to avoid further deterioration, expedite recovery and avoid NHS delays.
- ✔ Recommended and obtained a gym membership for the patient to continually improve muscle mass.
- ✔ Arranged a Biomechanical assessment and provision.

Case manager response:

"We feel accomplished and proud that the patient has managed to return to work with full ability once more!"

Patient Outcome:

"I'm so relieved to be back to normal health, back to full-time work with full capacity which is excellent, especially as I'm a self-employed builder."
