

Clinical Support and Rehabilitation Services

Doctor-led clinical support to progress rehabilitation, and support clinically informed case decisions.

Day One Review

A **FREE** doctor-led clinical review identifying rehabilitation needs and the most appropriate next steps.

Rehabilitation Funding

Helping secure rehabilitation funding through defendant liaison or **Medicess** funding where appropriate.

Independent Rehabilitation Review

Independent review and **monitoring of rehabilitation** progress, treatment quality and unresolved clinical issues.

INA Funding

Helping secure rehabilitation funding through defendant liaison or **Medicess** funding where appropriate..

MDT Rehabilitation Management

Doctor-led multidisciplinary case management providing coordinated clinical oversight throughout recovery.

Settlement Review Service

Independent clinical review supporting **informed settlement decisions** and future rehabilitation planning.

Immediate Needs Assessment (INA)

A structured **MDT assessment** identifying rehabilitation and vocational needs and an appropriate plan.

Managed Treatment Services

Turning treatment recommendations into coordinated, timely treatment delivery.

Litigation Support

Clinical support including **expert briefing, interim payment** evidence and rehabilitation advice.

Referral Guidance and Process

Every referral will receive a **FREE** doctor-led clinical review.
You do not need to identify the rehabilitation need — Medicess doctors will do that for you.

Injured Party Indicators

Refer if the injured party reports:

- Ongoing pain or symptoms
- Reduced mobility or function
- Difficulty with daily activities
- Psychological symptoms or distress
- Difficulty returning to work
- Receiving treatment or has treatment planned

Case Indicators

Refer if the case suggests:

- Experts recommend treatment
- Recovery is slower than expected
- The rehab plan does not feel right
- Treatment has stalled or stopped
- Funding is creating delay

What Happens Next

FREE Clinical Review

Our doctors to assess rehabilitation need and strategy:

- INA funding and assessment
- MDT rehab management
- Managed treatment
- Rehabilitation review and monitoring
- Settlement review

If rehabilitation support is needed, we will identify the right pathway. If it is not, we will tell you.

There is nothing to lose by referring early.
